## Reamer Shoe

EZI-Drill Nose Feature

Flow Ports

Single Valve Option

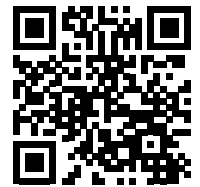

Cement Retaining Grooves

Cement Retaining Grooves

### Ezi-Drill

The Ezi-Drill nose feature is designed to withstand high set-down weights when running the casing to T.D. during drill out, the aluminum will break into small chips to avoid 'bird-nesting' of the bit to allow for a quick drill-out time.

Energy. Well engineered.
